

## **JOB OPENING**

### **Microdata Expert at the Luxembourg Income Study (LIS) -- A Non-Profit Data Archive and Research Center in Luxembourg**

**Starting date:** January 2010, or as soon as possible.

**Duration of employment:**

24-month position, with the possibility of extension. Shorter length is also negotiable.

**The work will include:**

- harmonizing and documenting microdata in the areas of income, expenditures/consumption, employment, and demographics
- contributing to the conceptual framework underlying the harmonization process and practices
- working with data providers and
- assisting and instructing data users

**Required:**

- PhD or MA degree (or equivalent experience)
- experience with surveys or datasets from *low-income* and/or *middle-income* countries
- substantial experience working with microdata
- substantial experience producing or managing datasets
- good command of programming in a major statistical package
- proficiency in English (the working language in the LIS office)

**Priority** will be given to applicants with:

- experience working with income, expenditure and/or consumption data
- experience working with labor market data
- experience working with data on assets/wealth and/or debt
- knowledge of SAS

Candidates are encouraged to apply from multiple disciplines, including economics, sociology, political science, social policy, social statistics, demography and related fields. Successful candidates will be granted some time to carry out research using the LIS data.

Applicants should submit a cover letter and curriculum vitae.

By email: Caroline de Tombeur at [caroline@lisproject.org](mailto:caroline@lisproject.org).

Or by mail Caroline de Tombeur  
Luxembourg Income Study, asbl  
17, rue des Pommiers  
L-2343 Luxembourg

Please indicate required salary range in the cover letter.

Applications will be considered until the position is filled.
